Career Objectives

To grow as a software developer, want to utilize my strong coding skills and problem-solving mindset to design robust and scalable applications. Striving to collaborate in dynamic teams and want to stay updated in the ever changing world of software development.

Professional Experience

Front-end developer, itcroc   02/2023 – present
  - Developed pixel-perfect websites according to Figma or xd.   Dhaka, Bangladesh
  - Developed responsive websites for multiple devices.

Skills

- Expertise: HTML5, CSS3, Bootstrap, JavaScript, React, React Router, Firebase(Authentication)

- Comfortable: Tailwind, Express JS, TanStack Query, React Hook Form, MySQL, MongoDB

- Familiar: JWT, Axios, Node JS

- Tools: Git, Github, Netlify, Vercel, VS Code

- Extra Skills: C/C++(Problem solving)

Projects

Fluency Fusion - Foreign Language Management System (MERN) 🔗
Client side code 🔗 | Server side code 🔗
Technology Used: React, Firebase, React Router, React Bootstrap, Express JS, MongoDB, JWT
Key Features:
  - Implemented Login/Logout system (email password and Google using Firebase Authentication).
  - By default, the user gets a student role. Students can enroll in the course and can pay via stripe.
  - Three different roles student, instructor, and admin. Private and public route.

Toytopia - A toyshop related website (MERN) 🔗
Client side code 🔗 | Server side code 🔗
Technology Used: React, React Bootstrap, MongoDB, Express JS
Key Features:
  - Implemented Login/Logout system using firebase authentication.
  - Private route, category wise product showing. User can not add/see toys if he does not logged in.
  - A particular user can see his added toys. And he can update or delete his/her added toys.

Cooking Chronicles - A Recipe/food related website (MERN) 🔗
Client side code 🔗 | Server side code 🔗
Technology Used: React, React Router, React Bootstrap, Express JS, Firebase (Authentication)
Key Features:
  - Implemented Login/Logout system using firebase authentication.
  - User can see chef's information, view button will show chefs information and his Recipe's.
  - Without login a user can not see view recipe (private route, public route).

Education

Bachelor of Science, Southeast University   2019 – 2023
Computer Science and Engineering   Dhaka, Bangladesh
